

Temporary Pantry COVID_19 Process Starting March 16, 2020

The Fondy Food Pantry has changed its walk-in pantry procedures to comply with the recommendations of the Health Department. As a result we will be offering food via a drive through process. Please note that if you are sick, please send a proxy in your place.

Modified Food Distribution Process -

- To ensure safety for the public and our volunteers we are limiting contact to 3 to 6 feet.
- We will be operating a drive through for food distribution. We are asking all clients to remain in your cars.
- Enter the driveway on Rolling Meadows Drive.
- The driveway will be blocked until exactly 3:30 on Monday/Wednesday & Friday. Tuesday the driveway will be blocked until 11:00 am.
- You will be greeted by a volunteer greeter who will put a numbered card on your windshield asking if you are a returning client or a new client. You will then be directed to a particular lane for registration.
- You will then be approached by a registration person outside. We will ask for names and verbal address verification for existing clients.
- If you are a new client to the pantry please send an email to the office at office@fondyfoodpantry.org containing names of everyone in the household, their birth date and physical mailing address.
- You will then be directed to the back of the building for food distribution. We ask that you open the trunk from the inside of your car to minimize contact. If that is not an option please open the trunk and then get back into your car.
- Food distribution will include shelf stable canned and packaged items along with frozen meats, dairy and produce. Unfortunately this modified process does not allow you the opportunity to choose what foods you will receive.
- Note that this process may take some time, so please be patient with our volunteers.

Special Note:

- The Kids Mart will not be in operation during this modified process.
- We will not be open on Saturday March 21st
